

Shoes

Steps To Decluttering Your Shoes

- Collect all your shoes
- Double check you have all your shoes...Did you look in the car? all closets?
- Create a keep, donate, and sell pile using garbage bags
- Check the size of the shoes and discard if shoes no longer fit
- Try on each pair of shoes. Look in mirror to determine if you feel good in the shoes
- Continue until you have sorted each and every pair of shoes you own
- Put the donate shoe pile in your car
- Move the sell pile out of the space
- Focusing on the keep pile, find one space in your house that will hold ALL your shoes
- Clean space that will hold all shoes
- Put all shoes away in that one space that is designated for shoes
- Continue with the remaining shoes for the family
- Tweak storage as needed
- Continue to discard shoes that you no longer feel good in when you try them on! Don't hold onto anything you don't love!
